PSC Sets Intervention Deadline In AmerenUE Request To Build Power Line

JEFFERSON CITY—Union Electric Company d/b/a AmerenUE has filed an application with the Missouri Public Service Commission seeking Commission authority to construct a 345-kilovolt line in Jefferson and Ste. Genevieve Counties.

AmerenUE states that all but approximately 2,000 feet of the line will be located within AmerenUE's existing certificated service territory in Jefferson County. The remainder of the proposed line will be outside of AmerenUE's service territory, in Ste. Genevieve County, in an area served by Citizens Electric Corporation.

The proposed line will begin at AmerenUE's Rush Island Generating Plant's 345-kilovolt Switchyard and end at a breaker station to be constructed and owned by Citizens Electric Corporation near the site of a cement plant being built and owned by Holcim (US), Inc. Citizens Electric Corporation requested construction of the proposed line to serve its customer, Holcim. The proposed line will be located on property that AmerenUE or Holcim own.
